

Errata Sheet

Exam28: Sustainability Appraisal of Gypsy and Traveller Site Options for the Dartford Local Plan

Two of the scores for SA objective 12 'Climate Change' were previously erroneous and have been amended.

For Eagle Farm the double negative question mark has been corrected to a single negative.

For Eebs Stables the single positive has been corrected to a single negative.

These changes now reflect the supporting text to SA Objective 12 which was always correct and therefore remains unchanged, it continues to note that scores to SA Objective 12 closely reflect the scores of SA Objective 6.

Under SA objective 6, the text previously stated that a negligible effect is expected for the Salinas site but the summary table of scores shows minor negative effects for the site. The minor negative score symbol is correct and the text has been amended.

For the Salinas site, the text previously stated there will be a minor negative effect on SA objective 13 but the summary table shows significant negative. The score symbol is correct and therefore the text has now been amended to match.
